## **PROGRAMME REPORT**

Name of the programme : A One Week Faculty Development Programme on  
"OPTICAL FIBER COMMUNICATION"

Dates : 19-07-2018 to 21-07-2018

Details of Resource Person:

Name : Sri. NAREESH

Designation : Lecturer

Organization : SSR Degree College, Srikakulam

Objective of the Programme:

Fiber-optic communication is a method of transmitting information from one place to another by sending pulses of infrared light through an optical fiber. Fiber optics (optical fibers) are long, thin strands of very pure glass about the size of a human hair. They are arranged in bundles called optical cables and used to transmit signals over long distances. Fiber optic data transmission systems send information over fiber by turning electronic signals into light.

Topics covered:

- Single mode
- Multimode graded index
- Multimode step-index

Outcome of the Programme:

Optical communications have enabled telecommunications links to be made over much greater distances and with much lower levels of loss in the transmission medium and possibly most important of all, fiber optical communications have enabled much higher data rates to be accommodated. Optical fibers are about the diameter of a strand of human hair and when bundled into a fiber-optic cable, they're capable of transmitting more data over longer distances and faster than other mediums. It is this technology that provides homes and businesses with fiber-optic internet, phone and TV services.

### About the College:-

Gayatri College of Science and Management was established in the year 1991, it is one of the best college in Andhra Pradesh. There is no such college in the rural area, it provides all the latest facilities. The college provides the best higher education to the society and the aim of the college is to provide the education with the latest and high tech facilities. It gives the opportunities to study to those students who willing to study and economically week. Shri G.V. Swamy Naidu, is a dynamic man he was to spread education all over and he comes from backward area so he decided to spread education in the rural area. The main aim of the college is to serve the best quality of education to the students who comes from backward area.

Gayatri College of Science and Management got affiliated by Andhra University and there are many other courses are offered by the college for the undergraduate, post graduate and professional courses and diploma courses, aspirants interested in their area take admission and pursue career.

There are many courses offered by the Gayatri College of Science and Management such as

- Bachelors of Science- Mathematics,
- Physics, •Chemistry, •Zoology, •Bio-Chemistry,
- Bio- Biotechnology

Post graduation Courses-

- Master of Business Administration
- Master of Computer Application
- Master in Science- Analytical Chemistry

The college has best facilities such as laboratories, spacious and lush green area, dedicated staff, transportation facility.

### About the Department:-

The Department of Physics was established from the inception of the college i.e in the year 1996. Its glorious progress with a well established laboratories, instrumentation and other equipments. The department offers variety physics courses for the purpose of imparting knowledge in the core subject.

The department serves with highly qualified and experienced faculty members from the day of established.

At present the Department has fully equipped laboratories for the need of students as well as for research work and total 4 faculty members are working in the department with highly qualified and experienced.

The faculty of the department are involved in research in various areas.

Department also has Departmental Library. This department is equipped with LCD projector and a computer with internet facility.

### About the Progeam:-

- \*Understanding partical physics and related theory

### Topics Covered:-

- \*Particle Definition
- \*Physical theories on Particles
- \*Importance of Particle Physics

**PROGRAM REPORT**

**Name of the Resource Person:** M. D. G. Prakash

**Topic:** Recent trends in mathematics and its applications.

**OBJECTIVES:**

1. Understand recent trends in mathematics.
2. Know the applications of topological spaces.
3. Understand the use of mathematics in real world and different fields.
4. Solve abstract problems using traditional methods and techniques.

**TOPICS COVERED:**

1. A journey from real to abstract topological spaces.
2. Applications of mathematics in natural world and Human Anatomy, Fractal geometry and applications.
3. Mathematical modeling of nonlinear systems and physical flow models.
4. Algebra Number Theory
5. Convergences of Sequences

**OUTCOMES:**

1. Able to apply different fields of mathematics in other disciplines.
2. Understand recent approaches are far better than traditional methods to solve a problem.
3. Aware on current thinking of collaborative and inter discipline mathematics.
4. Acquire knowledge on applications of abstract concepts in mathematics.

Number of participants: 34

## **PROGRAMME REPORT**

Name of the programme : A One Week Faculty Development Programme on  
"Chemistry In Human Life"  
Dates : 17-09-2018 to 22-09-2018  
Details of Resource Person:  
Name : Sri. S. MAHESH BABU  
Designation : Lecturer in Chemistry  
Organization : Gayatri College for P.G Courses  
Mobile No : 9885522568  
Email id : maheshbabuchemistry@gmail.com

### **Objective of the Programme:**

Chemistry is a big part of our everyday life. One can easily observe this branch of science in different spheres of human life such as in the food we eat, the air we breathe, the various cleansing agents we use, so much so that even human emotions are sometimes a result of chemical reactions within our body. Chemistry is essential for meeting our basic needs of food, clothing, shelter, health, energy, and clean air, water, and soil. Chemical technologies enrich our quality of life in numerous ways by providing new solutions to problems in health, materials, and energy usage. The study of chemistry provides global work opportunities. Chemistry underpins understanding and progress in almost every sphere of science, technology and industry. It also makes a vital contribution to the economy, commerce and industry.

### **Topics covered:**

- Analytical Chemistry.
- Biological/Biochemistry.
- Chemical Engineering.
- Inorganic Chemistry.
- Organic Chemistry.
- Physical Chemistry

### **Outcome of the Programme:**

The most important elements for life are carbon, oxygen, hydrogen and nitrogen. Surprisingly, our bodies are more than 98% carbon, oxygen, hydrogen and nitrogen. Chemistry helps you to understand the world around you.

- Basic knowledge of chemistry helps you to read and understand product labels.
- Chemistry can help you make informed decisions. ...
- Chemistry is at the heart of cooking. ...
- A command of chemistry can help keep you safe
